### **RE: Testimonial**

To Whom It May Concern,

Raymond Hearn's passion and love for the game of golf from not only an architectural but a historic perspective overwhelmed the City's selection committee and lead to his team's winning proposal for the design of improvements to our historic municipal golf course. He approached our project with both enthusiasm and respect for the courses natural landscape features and original layout and design. Ray also displays a distinct reverence to those elder course architects who came before him and often references them in his decision making process. I would highly recommend Ray to anyone looking to reinvigorate their golf course into a top level facility.

I would be happy to talk about my experience with Ray in person and can be contacted between the hours of 9am and 5pm at (518) 382-5082 or [cwallin@schenectadyny.gov](mailto:cwallin@schenectadyny.gov) .

Sincerely,

Christopher R. Wallin, P.E.  
City Engineer
