

Ray Hearn is the KING of golf course designs!!! I have worked with Ray for several years and what he designed for Saint John's Resort is spectacular and will be a game-changer for our resort. Ray jumps in whenever needed and is always available for last-minute discussions and will even jump on a plane or in his car if needed to be on site. I have never had someone so service-oriented to make sure the project stays on track and is open to changes if the ownership wants something added. I will never look at any other designers if Ray is available for our next project!!! AKA Ray Hearn is a ROCKSTAR!!!!
